

I just wanted to say how absolutely important the K-Love Broadcast is important to me and to my everyday life. It is encouraging, uplifting, and instills a sense of hope that no other station has been able to do. If you were to take it away, I can not even begin to put into words what the negative impacts would be. Do you know how many individual lives have been saved because of them. Not just spiritual but many have been saved from suicide. Thier counselors are amazing. I am speaking on behalf of those I love and in my Kansas City Community. K-Love is essential to our lives. Please keep it going! Thank you for your time.
